PROBLEM STATEMENT

Many students and professionals struggle to showcase their skills, projects, and achievements effectively in a single organized platform. Traditional resumes often fail to highlight interactive or practical aspects of a candidate's work.

PROJECT OVERVIEW

This project focuses on creating a digital portfolio website where users can present their about section, education, skills, projects, and achievements in a clean, user-friendly, and responsive format.

WHO ARE THE END USERS?

Students (to showcase academic and project work)

Job seekers (to highlight skills and achievements)

Professionals (to build a personal brand)

Recruiters/Employers (to evaluate candidates effectively)

TOOLS AND TECHNIQUES

Frontend: HTML, CSS, JavaScript

Design: UI/UX principles, responsive design techniques

Hosting: GitHub Pages / Netlify

Version Control: Git & GitHub

POTFOLIO DESIGN AND LAYOUT

A modern, responsive single-page design

Sections: About, Education, Skills, Projects,
Achievements, Contact

Navigation bar with smooth scrolling

Card-based design for skills and projects

FEATURES AND FUNCTIONALITY

Interactive navigation bar

Responsive design (works on mobile, tablet, desktop)

Highlighted skills and tools

Projects with descriptions and links

. Contact form or email integration

RESULTS AND SCREENSHOTS

Fully functional portfolio website

Accessible across devices

Organized and professional presentation of user profile
